

Tears

Kehlani

Do you even see it?
Can you name your demons?
You've never been honest
Broken like a promise
Tricky like Houdini
No one knows your secret
Nobody believes you

You been trying so hard
With nothing left to lose
You been hiding so long
Just tell me the truth

Why you got teardrops in the club?
Are you missing me or the drugs right now?
Are you seeing memories of us right now?
Are you just needing a little love right now?
Why you got teardrops in the club?

Teardrops
Water from bay, I bust my spirit off
I'm missing you, I'm also missing us
Fire in the air blows, don't let me jump
Oh, teardrops
Why you want things that mess your feelings up?
You saw the red lights, but you didn't stop
Waiting on you, that shit takes too long

Why you got teardrops in the club?
Are you missing me or the drugs right now?
Are you seeing memories of us right now?
Are you just needing a little love right now?
Why you got teardrops in the club?

I be the life of the party and I ain't playing about it
No, I ain't playing about it, like hell no
I got this ink on my body and I ain't playing about it
Not even tatting your name on my elbow
(You got me) Doing some crazy love
Calling all my exes up
They're used to seeing an angel until I pop out and show 'em
The other side when I jump out the halo, ay

Why you got teardrops in the club?
Are you missing me or the drugs right now? (Yeah)
Are you seeing memories of us right now? (Memories of us right now)
Are you just needing a little love right now? (I'ma be the best you ever had
, uh)
Why you got teardrops in the club?

(I'ma be the best you ever had)
(Are you missing me or the drugs right now?)
Ooh, why you got teardrops in the club? (Are you seeing memories of us right
now?)
(I'ma be the best you ever had)
(Or are you just needing a little love right now?)
(I'ma be the best you ever had, had)

(I'ma be the best you ever had, had)

(I'ma be the best you ever had, had)
(I'ma be the best you ever had)
(I'ma-I'ma-I'ma be the best you ever had, had)
What happens here stays here, it's just like Vegas (I'ma be the best you ever had)
(I'ma be the best you ever had, had)
(I'ma be the best you ever had)
(I'ma-I'ma-I'ma be the best you ever had, had)
(I'ma be the best you ever had)
You been trying so hard
With nothing left to lose
You been hiding so long
Just tell me the truth
