Your pain through time
Heaven knows I would be hurt without it
Your voice through snow
Heaven knows I would be lost without it

I stay out alone to sing your song at night
Dark light
I can see your fight to free me
I can see your fight to free me

Finding you has made me strong
It's our song
I'll sing it louder
Just a bit louder
We've been hiding way too long
It's our song
I'll sing it louder
Just a bit louder

Your strength through ice
Heaven knows I would be weak without it
Your hope was right
So I could live and be what I decided

I stay out alone to sing your song at night
Dark light
I can feel you here beside me
I can feel you here beside me

Finding you has made me strong
It's our song
I'll sing it louder
Just a bit louder
We've been hiding way too long
It's our song
I'll sing it louder
Just a bit louder

Yeah I'm a native american sinner yeah
We survived the scariest winters unh
Try divide my brother my sister nah
Couldn't do it we coming to get em
I've been fighting myself for way too long
Might allow for them to come do me wrong
All my peoples before me they knew the song
Passed it down to me I know they down for me

Deattu maid sii leat buohkat guoddan
Fámuid oažžun dus gii leat mu guoddan
Leage cuovga, leage buolvva ofeláš
Boadan álo leahket giiteváš

Finding you has made me strong

It's our song
I'll sing it louder
Just a bit louder
We've been hiding way too long
It's our song
I'll sing it louder
Just a bit louder
