

## Getaway

Keith Sweat

Now baby, now baby, now baby, now, now, now  
Let's get away, get away girl  
Come on girl  
Now baby, now baby, now baby, now, now, now  
Let's get away, get away girl  
Leaving the club on a Saturday night cause it's over  
And I'm feeling really good

I see this [?] walking beside me  
Why you're crying you should be all good  
You had a hard day at work  
Your man left you hurt  
You're better than falling away  
So pack your bags in a sack  
Take the first [?] baby with me

Don't you laugh girl  
You deserve something so much better in your life  
Baby won't you fly with me  
Making love at the sea shore  
When the water hits the rocks you want some more  
Girl ride with me, ride with me

You get away  
You want to get away  
Don't you want to get away  
You want to get away  
I know you want to get away

You get away  
You want to get away  
Don't you want to get away  
You want to get away  
I know you want to get away
