

## Ain't It Like a Woman

Keith Urban

I was Friday night king of the neon scene  
All the police knew my name  
It was whiskey shots and parking lots  
Heading nowhere in the fast lane  
I was closing the bar, breaking the hearts, chasing a good time  
Thinking I'm fine till I came up on a stop sign  
Five foot nine, pretty blue eyes  
Walked in and changed every damn thing

Ain't it like a woman  
To stop a runaway train running off a track  
Ain't it like a woman  
To take the reins, tame a wild horse, and pull 'em back  
With her strong and her sexy  
She's ten and two when I would've wrecked me  
Ain't it like a woman  
To come along and save a man

I don't know how she do what she do  
But she do the thing, oh, so well  
Showing this sinner just a little bit a heaven  
When he did a little time in hell  
Maybe the touch, maybe the love, the way she lights a room  
Or maybe her mama raised her up to be the one to  
Fix it if it's broke, either way I know  
I'm a better man since she came

Ain't it like a woman  
To stop a runaway train running off a track  
Ain't it like a woman  
To take the reins, tame a wild horse, and pull 'em back  
With her strong and her sexy  
She's ten and two when I would've wrecked me  
Ain't it like a woman  
To come along and save a man

Ain't it like a woman  
To put a red dress on and make ya see stars  
Ain't it like a woman  
To fix it all when the world seems to fall apart  
With her strong and her sexy  
She's ten and two when I would wrecked me  
Ain't it like a woman  
To come along and save this man
