

Blackout

Keith Wallen

Can't stay away
Moth to a flame
And I won't keep you waiting
Down to the wire
Wings on fire
Never hesitating
Holy ground
Burn it down
And it's not worth saving
Up all night
Chasing the light
But it keeps on fading

Drowning in your energy
I can't live without
Feeling every part of me
Brace for the blackout
Brace for the blackout
Brace for the blackout

A war within
Pull me in
I'm too numb to fight it
Can't stop now
Call it out
So there's no more hiding
Led astray
Let em say
That I'm so misguided
I wanna fly
One more time
The future's undecided

Drowning in your energy
I can't live without
Feeling every part of me
Brace for the blackout
Brace for the blackout
Brace for the blackout

Brace for the blackout
Blackout

Drowning in your energy
I can't live without
Feeling every part of me
Brace for the blackout
Brace for the blackout
Brace for the blackout
