

# Wildfire

Keith Wallen

Did I know you before  
Somewhere  
Somewhere in another life  
It's not easy to be yours  
I know  
I know how it feels to be alive

Your love is like wildfire  
There's no way to put it out  
I can't get any closer  
But I can't go without  
I'm addicted to the pain  
Burning through my blood  
Wildfire

Am I just too far gone  
Don't care  
Don't care if all I breathe is your atmosphere  
Dangerous liasons  
In a life worth fighting for  
Striving for  
Lying for  
Dying for

Your love is like wildfire  
There's no way to put it out  
I can't get any closer  
But I can't go without  
I'm addicted to the pain  
Burning through my blood  
Wildfire

What can I do  
What can I say  
There is nothing more to this  
Burning out the pain  
And you want me to stay  
And I'll never let you go  
I'll never let you go

Your love is like wildfire  
There's no way to put it out  
I can't get any closer  
But I can't go without  
I'm addicted to the pain  
Burning through my blood  
Wildfire
