

# Come Papi

Keiynan Lonsdale

Hands in your pocket  
Cool guy  
Afraid of the conversation  
Cannot disguise once we are locked in  
These eyes  
We play with the expectations

The water  
Pulls us in like lovers  
We could touch forever  
Even though there's danger  
We feeling so safe here  
Wishing we were naked  
So close we can taste it

Come papi play with me  
Come papi play for me  
I can show you the masterpiece  
Show you my masterpiece  
They say it's heavenly  
No need to ever leave this love

I done sweeped through the high hoes  
You can miss me with the rollers  
I need sometin different  
To keep my attention  
No more mystery I'm knowing  
I need bed kisses and night moaning  
Can you keep it fun for me  
How you hold it down for me

The water  
Rushes in like colour  
Close in on each other  
Even though there's danger  
We give in so gently  
Free up in this party  
Don't know how we got here  
But we keep on all night long

Come papi play with me  
Come papi play for me  
I can show you the masterpiece  
Show you my masterpiece  
They say it's heavenly  
No need to ever leave this love

Come papi play with me  
Come papi play for me  
I can show you my masterpiece  
Show me your masterpiece  
They say it's heavenly  
No need to ever leave this love

Must be the waves, yeah  
Must be the way you look on me  
No contemplating

You got me feeling heavenly  
No keep me waiting  
This ain't no game to play it mean  
Hands on your waist  
Love how we play it naturally

Must be the waving  
No patience  
Our innocence is playing  
With fire  
Go higher  
No room for hesitation  
We blazing  
Keep blazing  
Our innocence is playing  
With fire  
This higher love
