

Magic Mickey

Keiynan Lonsdale

I don't wanna be afraid of this anymore
I just wanna be loved
I wanna be touched
And I'd like to touch you in return
Is that okay

Know I'm so about it
Gotta tell the truth
I love so many bodies
But I ain't seen nothin' like you
I don't wanna control it's
But I don't wanna be so rude
And baby I can't hide it
So let me show you

Just how I take it all off so you see underneath
Then I'ma get you so lost in good love like a dream
Don't think I didn't notice
The way your eyes are hoping
See you been wanting this forever
And I'd love to get to know you better baby

Mm I'm in love at the moment
Slow take our time with the ride
If it's true make your moves
I wanna taste the magic of you

Hold me down, tie me up
Roll me round, I'm wild n ready

See I'm just tryna get liberated
But it's kinda hard being famous
(He wanna dick down everybody
But he can't just trust anybody)
They gotta be the right kinda
Freak at the party oh yeah
So can I get a fuckin' hoe here?
And bring your friends
I need a couple more yeah
And if the bitch could fix me right
That bitch gon' stay the night

See I'm such a fan of the make believe
Got me my crystals to heal our anxieties
I think the gods have noticed
The way our cards are flowing
See I could touch myself forever
But I love to have somebody
To share these pleasures of life with

Mm I'm in love at the moment
Slow take our time with the ride
If it's true make your moves
I wanna taste the magic of you

Ooh while we making the music
Glow show me how it feels right

If it's cool what we do
I'm gonna place my magic in you

Hold me down, tie me up
Roll me round, I'm wild n ready

Ooh shit
Now you know if you gone hit it bitch
You better connect honey
I said if you gone hit it
Then you better connect honey
If you gone, you better
If you gone, you better

So if it's up to me
I'll have a tribe of these bitches fall in love with me
And if they talk back I just make em gag repeat
I'm such a horny unicorn look at these rainbow sheets like
So can we cum in peace
Meditate in me real psychedelic shit
And once we done you'll remember my key
Cause I unlocked the door and I made you believe

Dream with me
Just dream with me
Once you lay in this bed
You won't want nothing more
Rest your head on my pillow
As your eyes close so gently babe
There's places I'll take you like nothing
You've ever felt before
When you dream with
