

# One Man

Keiynan Lonsdale

Imagination  
I think that's our souls creation  
And we're just like colours in the sky  
I say oh that's magic tonight

So if my life is just dust in the music  
I won't think twice about living it who I am  
If this world could just look in the mirror  
It would see there's a bigger plan  
We're so much more than one man

Yes if my life is just dust in the music  
I won't think twice about living it who I am  
If this world could just look in the mirror  
It would see there's a bigger plan  
We're so much more than one man

I know we think we're lonely  
But baby that's not fair  
I'm begging you to hold me  
So that I can share  
The truth is you're a rainbow  
And this is heaven's land  
I think it's time we come home
