

White Noise

Keiynan Lonsdale

They call us monkeys
When they be monkeys too
Ain't no denying
Cause what they see is what they do
They try to fight it
But they be crying while we
Shoop shoop baby baby shoop on you
We are the rhythm
We are the music too
And we stay cooler
Cause we closer to the truth
In the beginning
We all were singing with a
Shoop shoop baby baby shoop on you

Smooth over
All the white noise that we just don't need
You better move over
Ooh child feel the rhythm running through your feet
Smooth smooth over
All the white noise that we just don't need
You better move move over
Ooh child feel the rhythm running through your feet

She's fighting for her dreams
A black beauty queen
But they done told her
She could never ever do her thing
Media lying it had her crying
With the blues blues baby what is she gone do
She looked into the mirror
And finally saw it clearer
She was the perfect woman
There ain't nothin' left to fear
Let everybody know
That she can run the show like
Shoop shoop baby baby shoop on you

Smooth over
All the white noise that we just don't need
You better move over
Ooh child feel the rhythm running through your feet
Smooth smooth over
All the white noise that we just don't need
You better move move over
Ooh child feel the rhythm running through your feet
Let's go

Yeah play it baby
Ooh damn
My brothers and sisters
And my non binary bitches
When we dance this dance together
Oh this life can groove forever
All this black love and
All the white love is all the right love it's all of our love
All the light love

All this brown love
It's all the right love it's all of our love
