

# Fire And Smoke

Keke Palmer

Me for you. You for me  
Boy I claim it, Let it be  
If you need it, Boy I got it  
Love is right here, In my pocket  
From the bottom, To the tippy  
I will go all in as long as you with me  
Paint another when the color fades  
To paint you red, when it's all grey.

Turn it up, if you're feelin me  
If you're in love and it feels like a dream  
Turn it up, if you're feelin me  
Let your heart beat along with the keys

Through the fire, through the rain  
When you're so close, when you're far away  
Ima shield you from the pain  
I can show you better days

When you feel like it's over  
Ima hold ya, make you stronger  
There's no me, without you  
Boy I swear we're living proof like fire and smoke.

Yea Like and fire and smoke  
Like fire and smoke

Fill you up, when you're half full.  
When you're in love there's no such thing as empty.  
Swim in my love, like a pool.  
I'll be there to help you float.  
Not even an earthquake can shake us,  
We ain't made of glass, they can't break us.  
Better kiss good, it feels greater  
Lovin you is what I was made for

Turn it up, if you're feelin me  
If you're in love and it feel like a dream  
Turn it up, if you're feelin me  
Let your heart beat along with the keys

Through the fire, through the rain  
When you're so close, when you're far away  
Ima shield you from the pain  
I can show you better days

When you feel like it's over  
Ima hold ya, make you stronger  
There's no me. Without you  
Boy I swear we're living proof like fire and smoke.

Yea Like and fire and smoke  
Like fire and smoke

Can't nobody love you better  
Better never let another.  
Better never, let another love you better.

We together forever, forever, forever.

Through the fire, through the rain  
When you're so close, when you're far away  
I can shield you from the pain  
I can show you better days

Through the fire, through the rain  
When you're so close, when you're far away  
I can shield you from the pain  
I can show you better days

When you feel like it's over  
I can hold ya, make you stronger  
There's no me, without you  
Boy I swear we're living proof like fire and smoke.

Like fire and smoke  
Like fire and smoke  
Like fire and smoke  
Like fire and smoke
