

# Make Me Love Him

Keke Palmer

It's a dangerous game, I don't wanna play  
L to the O, O to the V hey baby  
What have you done to me  
'Cause I know I cannot stop  
Thinkin' 'bout us, up in my room, in a crowded bus  
No way, and you won't let me escape

And I can't help but notice  
The way that you kiss me  
Butterflies in my heart.  
I find myself open  
It's you that I'm missin'  
Tryin' my best not to start.  
I didn't wanna fall but

He's gonna make me empty my phone  
Text my friends and stay out at home  
Off like a record and say that I'm gone, say that I'm gone  
He's gonna make me live my life singin' love songs  
Check my screen to see if he calls.  
Share my world and give him my heart.  
He's gonna make me love him

I've been fightin' myself, forcin' myself  
Tryna put my mind on somebody else but baby  
You and your pretty boy swaggin'  
Got me followin' you on twitter  
Home run hitta  
You see a dime and he'll be with her  
I'm never gonna get away.

He's gonna make me empty my phone  
Text my friends and stay out at home  
Off like a record and say that I'm gone, say that I'm gone  
He's gonna make me live my life singin' love songs  
Check my screen to see if he calls.  
Share my world and give him my heart.  
He's gonna make me love him

When I think about us  
It's x's and o's  
And when they lookin at us  
All my x's get froze  
Are we suppose to be  
Living this dream  
So come close to me  
I'll show you what I mean  
You got that walk of a model  
Body like a bottle  
Smarts of doc  
I wanna meet your mama  
On you like a bike  
Just show me where you throttle  
I swear I'll stop talking to them breezy's if I got to  
Run laps through your mind  
Let me joke your memory  
We got the greatest love of all century

I saved every single text that you sent to me  
We might even get married eventually  
But naw, let's not lose concentration  
You are star, you apart of my constellation  
So, you can stop checkin your phone for this evening  
You say your heart is locked  
Girl but I got the key key

He's gonna make me empty my phone  
Text my friends and stay out at home  
Off like a record and say that I'm gone, say that I'm gone  
He's gonna make me live my life singin' love songs  
Check my screen to see if he calls.  
Share my world and give him my heart.  
He's gonna make me love him
