

# Off Script

Keke Palmer

Got something heavy on my chest, love  
I been sitting with it for a while  
You don't wanna be in the dog house  
And I don't wanna be a bitch on trial  
You hear but you don't listen  
I'm screaming to make this worth while  
You still think I don't love you

Even when I let you get me pregnant  
Oh shit, how else can I prove it?  
There's nothin' else I can do  
The problem seems to be you  
Was 'posed to be my Stedman  
Instead you went on that baby daddy shit  
What can a bad bitch do  
When you see me how you do?

Off script  
Without thinkin' of the consequence  
Off script  
And the audience is laughing at me  
How'd we get so off script?  
We lost the plot but I'm finding it  
Loving you through all of it  
Off script

Got me on some viral shit, scandalous  
Call the lawyers, handle it  
The money's the last thing we was worried 'bout  
The truth is we both was fighting for our child  
So how we gonna figure this out  
This ain't just about us now

'Cause I let you get me pregnant  
Oh shit, how else can I prove it?  
There's nothin' else I can do  
The problem seems to be you  
Was 'posed to be my Stedman  
Instead you went on that baby daddy shit  
What can a bad bitch do  
When you see me how you do?

Off script  
Without thinkin' of the consequence  
Off script  
And the audience is laughing at me  
How'd we get so off script?  
We lost the plot but I'm finding it  
Loving you through all of it
