

Standards

Keke Palmer

Tonight I wanna cross the line
Baby don't waste my time
Temperature is high
Need you to relieve my mind
Speak to me no words
Touch me if you wanna say
Anything
Just take this pain away

Feel it all in my body
Tired of feeling sorry
For something I cannot change, yeah
Need something in return
For all these lessons learned
Hoping's just gon' bring more pain

Do you mind if I make it up to myself
(Just this time)
Get in line or you gonna find yourself left
Right or wrong
I'ma ride by my side till my last breath
Do you mind if I make it up to myself

Cause I need me too

I got standards
Can't let go my standards
This time around
You better hold me down
I got standards
And I won't lay down my standards
Just to be involved
I can't let my crown fall

Think about it all the time
Does it ever cross your mind
Good love ain't really hard to find
You just gotta look inside, yeah
Can't get sidetracked with broken promises
This time when I put me first
I will not regret it

Feel it all in my body
Tired of feeling sorry
For something I cannot change, yeah
Need something in return
For all these lessons learned
Hoping's just gon' bring more pain

Do you mind if I make it up to myself
(Just this time)
Get in line or you gonna find yourself left
Right or wrong
I'ma ride by my side till my last breath
Do you mind if I make it up to myself

Cause I need me too

I got standards
Can't let go my standards
This time around
You better hold me down
I got standards
And I won't lay down my standards
Just to be involved
I can't let my crown fall

I can't let my crown fall
I can't let my crown fall
I can't let my crown fall
