

Unless It's You

Keke Palmer

I give my whole heart wholeheartedly
I'd give my last breath for you to breathe
Turn every touch to a symphony
It's you and me
From zero to infinity

So many people you could've been
Imagine just strangers or barely friends
Picture the memories we would have missed
No one does it for me, baby

Unless it's you
Don't want nobody hugging me
Touching me, loving me
No one will do
Baby, unless it's you
Don't want nobody holding me, showing me love
'Cause it won't be as true
Unless it's you

I know I'm so hard to please
But you just do it for me
I'm like a leaf in the breeze
I will follow where you lead

And I'd never roll the dice
And I put that on my life

Unless it's you
Don't want nobody touching me
Hugging me, loving me
No one will do
Baby, unless it's you
Don't want nobody holding me, showing me, loving me
'Cause it ain't as true
Unless it's you
