

Another Lifetime

KeKe Wyatt

Last night when I was all alone
Cleaning my closet out
I found an envelope, a letter that you wrote
Before the chemistry faded out

It stuck me in my tracks and caught a flashback
Now I'm feeling all nostalgic
With every word I read
The memory's kept, getting in the way around it

Now I miss you in my life
Oh, baby, but it's painful to see you now
But I know some day, some how
That we are gonna reunite
Oh, baby, don't ask me when
But I know that I'll see you again, right now

We only hurt each other, baby
So find another lover baby
But I believe that you and I
We're gonna meet in another lifetime (Ayye yea)

And right now you're not the one
So don't let that break you up
So I believe that you and I
We're gonna meet in another lifetime
(Ayee yeaaa Ayeee yeaaaa Ayeee yeaaaa)
We gonna meet in another lifetime

I can't pretend that I don't wonder
Where you sleep at night
I can't stand that deep inside I know
eventually some other love you'll find

But you deserve true love with someone
Even if the love ain't with me
I need to let you go, release control
Even though I know that'll kill me

We only hurt each other, baby
So find another lover baby
But I believe that you and I
We're gonna meet in another lifetime

And right now you're not the one
But don't let that break you up
Cuz I believe that you and I
We're gonna meet in another lifetime
(Ayee yeaaa Ayeee yeaaaa Ayeee yeaaaa)
We gonna meet in another lifetime

Now I miss you in my life
Oh, baby, but it's painful to see you now
But I know some day, some how
That we are gonna reunite
Oh, baby, don't ask me when
But I know that I will see you again,

We only hurt each other, baby
So find another lover baby
But I believe that you and I
We're gonna meet in another lifetime

And right now you're not the one
But don't let that break you up
Cuz I believe that you and I
We're gonna meet in another lifetime
(Ayee yeaaa Ayeee yeaaaa Ayeee yeaaaa)
We gonna meet in another lifetime
