Let's both pretend like
It's an ordinary day
And our love is still the same

Let's both pretend like
All the wrong things we would say
We were just playing

'Cause I don't remember (Alone) What it feels like And I don't really want to know What without you would be like

'Cause if I had you
Then I'll have everything I need
If I have you, you, baby
Then I'm living a dream

And that you can know, know, know I don't care what we go through, no If I had you, baby Then I'm living a dream

Let's both pretend like Our hearts are in the same place We believe that we can make it

Let's just pretend like We're going through changes We've gotta make it

'Cause I don't remember
(Alone) What it feels like
And I don't really want to know
What without you would be like

'Cause if I had you
Then I'll have everything I need
If I have you, you, baby
Then I'm living a dream

And that you can know, know, know I don't care what we go through, no If I had you, baby Then I'm living a dream
