

No Peace

KeKe Wyatt

I'm surrounded in a shadow with doubt and fear
You took a storm through my heart then you disappeared
Don't wanna know if the love that we had turned off
So I sit and watch the blood in my veins run cold, over you

Tell me what you want from me
You're so cruel it's unfair
How could you abandon me
I'm searching, you're not here

There's no peace no, I'm at war without your love
There's no peace no, my world is slow spiraling out of control
See there's no peace without you
What can I do, I need you here
There's no peace no
There's no peace no no no peace
No no no peace
No no no peace
No no no peace
No peace no

Somebody's talking to me saying it'll be okay
But I don't hear 'em cause my broken heart is in the way
Deep in my soul there's a feeling that you're long gone
And I should let it go but my heart and my mind's so torn over
you

Tell me what you want from me
You're so cruel, it's unfair
How could you abandon me
I'm searching, you're not here

There's no peace no, I'm at war without your love
There's no peace no, my world is slow spiraling out of control
See there's no peace without you
What can I do, I need you here
There's no peace no
There's no peace no no no peace
