

# Push Me Away

KeKe Wyatt

You just keep pushing me away, hear me babe  
Last night I called you on the phone  
No one answered  
Cause you were not alone (your never alone)  
But with someone else other than me  
Baby tell me why you hurt me so  
Constantly

Push me away, Push me away  
I know you don't care anymore  
It hurts inside to know  
Push me away, Push me away  
I know you don't care anymore  
I just can't take the pain

Boy I know your with your other girl  
I should of saw the other day  
You said she just a friend (just a friend)  
Don't worry now (KeKe don't you worry now)  
But here I am sitting all alone  
You should told me from start  
Before I gave my heart  
Don't get to serious and fall in love  
But now I know what I must do  
Walk away from you  
Inside it hurts so bad  
But what else can I do

Push me away, Push me away  
I know you don't care anymore  
It hurts inside to know  
Push me away, Push me away  
I know you don't care anymore  
I just can't take the pain

Why gonna do this to me  
Leave me all alone and hurting  
Can you tell me  
Why ohh, why  
Tell me why  
Why gonna do this to me  
Leave me all alone and hurting  
Can you tell me  
Why ohh, why  
You just keep pushing me away

Push me away, Push me away  
I know you don't care anymore  
It hurts inside to know  
Push me away, Push me away  
I know you don't care anymore  
I just can't take the pain

You keep pushing me, don't you push on me,  
why pushing me, stop your pushing please,  
you keep pushing me, don't you push on me,  
why pushing me away

You keep pushing me, don't you push on me,  
why pushing me, stop your pushing please,  
you keep pushing me, don't you push on me,  
why pushing me away

You keep pushing me, don't you push on me,  
why pushing me, stop your pushing please,  
you keep pushing me, don't you push on me,  
why pushing me away
