

Sexy Song

KeKe Wyatt

Sexy song
Sexy song
Sexy song
Sexy song

Set the mood
It's just me and you
And the radio's
All in tune

And we'll rock the boat
So nice and slow
Keep it on heavy rotation
As we go

I feel it in my soul
When the speakers blow
Releasing all of my tension
Losing control

Let's play us a sexy song
While we, we get it on
While we, we take it off
While we, we just get lost

Let's play us a sexy song
While we, we get it on
While we, we take it off
While we, we just get lost

In the music
In the moment
With my brown sugar
On your lips

We'll spin all the classics
Oh that's my ish
I'll get on top like the charts
A number one hit

Sharing the passion
Bathed in attraction
And when that song comes on
Who knows what will happen

Let's play us a sexy song
While we, we get it on
While we, we take it off
While we, we just get lost

Let's play us a sexy song
While we, we get it on
While we, we take it off
While we, we just get lost

Break it down
I love you and I'll sing it out loud

Turn it up
Let's amplify our love

Let's play us a sexy song
While we, we get it on
While we, we take it off
While we, we just get lost

Let's play us a sexy song
While we, we get it on
While we, we take it off
While we, we just get lost

Sexy song
