

Still Have Love

KeKe Wyatt

We had another argument
You threatened to leave again
And I don't even know how to fix
The mess we've got ourselves in

'Cause lately everything has changed
It makes sense to throw it all away
It's hard moving on
With things being the same

Oh, we promised
For better or for worse
We gotta make it work
Even if it hurts

We don't have much
And I know you've had enough
But even though the walls
Are falling down on us

Hey, we can't give up
And I know it just because
We may not have everything, but I know
We still have love, we still have love

I really don't know the words to say
At any time we could go our own ways
But no matter what we do, how we feel
Our love's gonna convince us to stay

But it's gotta be worth the fight
I can't have no more lonely nights
All we have left is our hearts
To make it right

Oh, we promised
For better or for worse
We gotta make it work
Even if it hurts

We don't have much
And I know you've had enough
But even though the walls
Are falling down on us

We don't have much
And I know you've had enough
But even though the walls
Are falling down on us
