

## Reaper

Keldian

I can hear your voice, echo from afar  
Every word you sing, treasured in my heart  
And at night when you go to rest  
The chill in the air is me  
I'm here

Here for you

Now I lay you down to sleep  
Pray that i your soul will keep  
Don't be afraid, only death divides us

It has been so long, watching from afar  
Every day alone, you know it breaks my heart  
So this night will be your last  
Your last alone  
The ghost on the wind is me  
I'm here

Here for you

Now I lay you down to sleep  
Pray that i your soul will keep  
Don't be afraid, only death divides us

You will die before you wake  
Pray that I your soul will take  
Don't be afraid, only death unites us
