

Born Under a Lightning Sky

Kele

I was born under a lightning sky
Now trouble follows me around
I was born under a lightning sky
Now trouble is the only home I know

I hear the thunder when they're talking
I feel the thunder and I know
That I'm to blame
Like watching mum and dad break up
Trouble is the only home I know

The wind is inside, it's blowing through the window
It chases me 'round, it won't leave me alone (I hide)
Under the stairs in my safe place
Under the stairs, I make myself small

I was born under a lightning sky
Now trouble follows me around
I was born under a lightning sky
Now trouble is the only home I know

When I close my eyes, I can feel it
Can you feel it?
Here it comes
It's getting closer, can you feel it?
Here comes the lightning
There's no safe place in a thunderstorm
When the lightning roars, I go outdoors
There's no safe place in a thunderstorm
When the lightning roars, I go outdoors
