

# First Impressions

Kele

First impressions, you're taking over me  
Although I fight it, it's only you I see  
You're in my dreams, there is no remedy  
I can't resist it, I can't  
Cause when I'm with you, there's nowhere else to be  
I've got somebody, so this is killing me  
But I can't deny the feelings that you bring to me  
I can't deny, I can't

[Chorus - Kele & Yasmin:]  
There's a good thing going on  
I can't fight it, it's just too strong  
I've been waiting oh so long  
For something special

[Yasmin:]  
First impressions last in my memory  
I've been drowning in thoughts of you and me  
Stuck in my head, just like a melody  
I can't forget, I can't  
One of a kind, you're like a masterpiece  
I can't describe the way you're making me  
Come alive, oh you bring out the best in me  
I'm on your side, I'm on

[Chorus x2]

[Kele & Yasmin:]  
We got a good thing going on  
I can't fight it, it's just too strong  
I've been waiting oh so long  
For something special
