

## Beluga's Song

Kelela

Watch the replay (Watch the replay, watch the replay)  
I give it all away (I give it all away, give it all away)  
Say it's all the same, I know it's all a game (Say it's all the same)  
I know it's all a bad game  
Forgetting what we talked about  
Another bad play

Then another  
Onto you, it's never-ending  
Always something else  
Always something else  
Tell me one thing, then another (Tell me one thing)  
Always (always)  
Something else (something else)  
Always

Rewind the heartache  
You try but it's fake  
The things I don't say  
See it in my face  
(You try but it's fake)  
The things I don't say  
See it in my face  
And then it's all coming out  
(Another bad play)

Tell me one thing, then another  
I'm onto you, it's never-ending  
Always something else (Always something else)  
Tell me one thing  
I'm onto you, it's never, never-ending (Always something else)  
Tell me one thing

When you talk out your back  
And it shows what you lack  
Gonna leave out the back

Always, always, always
