Kelela

We're takin' a ride, 405 through the west side
We're party to party, it's late but we're wide awake
The bass in my body, I'm sinkin', it's so wide
Time is surreal, now I'm floating in outer space

Rollin' up, we bring in the light
It might just render you blind
We're workin' hard every day
Don't need your help, I can pay
You're stressin', that's not allowed
There's nothin' holdin' us down
You see my hips and they sway
Now, see me walkin' away to the dance floor

Oh, it's a sauna, here if you wanna (I'm standin' in the light)
It's 2 AM, yeah, we made it, everybody faded (So high, so high,
so high)
And now I'm floatin' away, far and away (You know it feels so r
ight)
You tryna stall and delay, but I wanna play

We're hidin' away in the back on a new high (New high)
I'll give you a taste if you're good, but you gotta wait (Wait,
wait)
Your hands on my body, the feeling is so right
I'd go all the way if it's up to me, hey-yeah

Loneliness, I see in your eyes
It might just render you blind
Been gettin' harder these days
Contact we just have to make
You're stressin', that's not allowed
Got nothin' holdin' us down
You're leanin' in, I sway
Baby, let's dance it away

Oh, it's a sauna, here if you wanna (I'm standin' in the light)
It's 2 AM, yeah, we made it, everybody faded (So high, so high,
so high)
And now I'm floatin' away, far and away (Away, away, away, away
)
You tryna stall and delay, but I wanna play, yeah

Oh, oh-oh, oh, oh, oh
No, oh-ooh-woah, oh-ooh-woah, oh, no
