

# Let It Go

Kelela

Hmm, nah

Let it sink in, my love  
Where you're at is enough  
Care to tell me where you're going?

Where'd you go? Where'd you go? Where'd you go?  
Where'd you go? Where you hidin'?  
I'ma roll, I'ma roll, I'ma roll  
Lemme roll, lemme ride with

We're together now  
It's just a stormy cloud  
That's nowhere bound (Let it go, let it go, let it go, let it go)  
You're ready  
Together now (Tell me what you're going through)  
Just a stormy cloud (I can see it's almost over)  
We're nowhere bound (Let it go, let it go, let it go, let it go)  
And now it's raining

You run around  
I go inside  
You're running around  
Just come on inside

Where you goin', my love? (My love, my love, my love)  
Would you go there for us?  
For us  
For once, for once, for once

Where'd you go? Where'd you go? Where'd you go?  
Where'd you go? Where you hidin'?  
I'ma roll, I'ma roll, I'ma roll  
Lemme roll, lemme ride with

We're together now  
It's just a stormy cloud  
That's nowhere bound (Let it go, let it go, let it go, let it go)  
You're ready (No way)  
Together now (Oh, tell me what you're going through)  
A stormy cloud (Stormy cloud, I can see it's almost over)  
We're nowhere bound (Let it go, let it go, let it go, let it go)  
And now it's raining

Tryna go there, but you cop out (Yeah, yeah)  
You wishy-washy, but I'm no doubt (Yeah, yeah)  
I wanna see you in the blue light (Yeah, yeah)  
We in the dark, you shining so bright

Ba-da, bum, ba-da-ba-dam  
Ba-da, ba, ba-da, ba-da  
Come bring your love around  
Ba-da, bum, ba-da-ba-dam  
Ba-da, ba, ba-da, ba-da  
Just bring your love around  
You run around, I'll go inside  
Running around, just come on inside

Let it go, let it go, let it go  
Let it go, let it go, let it go  
Let it go, let it go, let it go  
You hide, but I'll find
