

Carefree American

Kelis

Ah, ah, I'm just a carefree American
Big house, big car
I'm just a carefree American
Come and make me a star(s and stripes)
Biggest lights, never die
The good life

Feel the cool breeze
Forget history
It just repeats
Take a load off
Watch some TV
Enjoy cable
I think it's for free

He greets you with a high five
He's just my kind of rugged guy
BBQs, the Sunday news
His road is just an easy ride

Ah, ah, I'm just a carefree American
Big house, big car
I'm just a carefree American
Come and make me a star(s and stripes)
Biggest lights, never die
The good life

Feel the cool breeze
Forget history
It just repeats
Take a load off
Watch some TV
Enjoy cable
I think it's for free

She wants to have everything
Now typical, the diamond rings
Deep in a snug routine
Oh baby, who knows when to scream

Ah, ah, I'm just a carefree American
Big house, big car
I'm just a carefree American
Come and make me a star(s and stripes)
Biggest lights, never die
The good life

You ride with me
Down a freeway or an open street
And we feel the breeze
With the top way down
And the sounds real loud

Ah, ah, I'm just a carefree American
Big house, big car
I'm just a carefree American
Come and make me a star(s and stripes)

Biggest lights, never die
The good life
