

# Suspended

Kelis

Don't wake me  
I'm still dreaming  
I don't see you  
I can't feel you  
I'm alone for real in my mind  
I'll feel this all night  
When my life takes flight

- This isn't just in your mind  
We're suspended from space and time

I feel like I'm falling  
What happens when I hit?  
Must mean then that's it  
This black abyss, this pit  
It all seems shades of gray  
I'm never ready for light of day

Why do you hurt me?  
This reality  
Why you smile at me?  
Show your fallacies  
Dreams hold me down  
But let me go  
When reality will wake me

Am I dreaming?  
If so, then why?  
My bodies back on Earth  
Only spirits can fly  
Soaring through dimensions of love  
Kinds only my father speaks of  
Scenery changes, spins and roll  
So does the color of our soul  
I know how this must make you feel  
You hate me but believe me this is real  
This was real
