

# Trilogy

Kelis

There's only one way to my galaxy  
Hop on your moon soon  
Don't separate it from me  
Your feet wont' touch the ground  
Cause there's no gravity  
Experiencing my trilogy

It seems like you're ready to go  
Got your bags packed up  
And your mind is set on touching the stars  
Can't you tell I'm ready to leave  
So I can meet you wherever you are, baby

Something 'bout the sky  
Something 'bout tonight  
Something 'bout the way you look  
Something 'bout your eyes  
Something 'bout that flight  
that makes me wanna ride in outer space with you all night

There's only one way to my galaxy  
Hop on your moon soon  
Don't separate it from me  
Your feet wont' touch the ground  
Cause there's no gravity  
Experiencing my trilogy

We can start the countdown now  
Got my rockets turned on  
So we can blast off straight to the moon  
You can take that jacob off  
Cause we won't be coming back no time soon, oh no, we won't

Something 'bout the sky  
Something 'bout tonight  
Something 'bout the way you look  
Something 'bout your eyes  
Something 'bout that flight  
that makes me wanna ride in outer space with you all night

There's only one way to my galaxy  
Hop on your moon soon  
Don't separate it from me  
Your feet wont' touch the ground  
Cause there's no gravity  
Experiencing my trilogy

We can reach the sun by dawn  
Feel the heat that's pouring at me  
NASA should call off the search cause this Earth has nothing for me

Buckle up your seatbelts  
We're about to land in 20 seconds  
Oh, oh, Thank You.  
You.  
Thank You for continuing to fly with me  
throughout this whole ride, ride

Thank You, You, oh, Thank You, You.
