

Christmas Is Coming After All

Kelleigh Bannen

It's been a long year
I don't have to tell you
We need a season that's sparkling brand new
No matter how crazy life gets these days
A little hope, mistletoe goes a long way

Pull me in close as the snow starts to fall
Listen to laughter ringing up and down the hall
Have you ever seen a tree so evergreen and tall
I guess Christmas is coming, Christmas is coming after all

So what if we stay in
What if it's just us
I hope we get snowed in
Wouldn't that be some luck
No matter how crazy life gets these days
Nat King Cole on an old Victrola goes a long way

Pull me in close as the snow starts to fall
Listen to laughter ringing up and down the hall
Have you ever seen a tree so evergreen and tall
I guess Christmas is coming, Christmas is coming after all

So pull me in close as the snow starts to fall
Even for a moment, this big ole world feels small
I've never seen a tree so evergreen and tall
I guess Christmas is coming, Christmas is coming
I guess Christmas is coming, Christmas is coming after all
