

Damn, I Still Love You

Kelleigh Bannen

Hey old friend how ya been
Almost didn't recognize ya
Dressed up in that suit and tie yeah
Guess you're all grown up
Me I'm still chasing down a dream
Keeps running away from me
Yeah some things never change

Damn I still love you
Even though I don't want to
Wish I could help myself
But I can't
Something you do when you do what you do to me
Is two steps forward and backwards three again
I could be good and over you and doing better
But I'll probably never not give a
Damn I still love you

Heard it from a friend of a friend
That you were moving back to town
Too small not to see you round
Just a matter of Friday nights
So I'll small talk my way though the weather
And whatever steers you clear of
Reading my mind

Damn I still love you
Even though I don't want to
Wish I could help myself
But I can't
Something you do when you do what you do to me
Is two steps forward and backwards three again
I could be good and over you and doing better
But I'll probably never not give a
Damn I still love you
Damn I still love you

Damn I still love you
Even though I don't want to
Wish I could help myself
But I can't
Something you do when you do what you do to me
Is two steps forward and backwards three again
If it takes a day for every day we were together
If it takes forever I don't give a damn
Damn I still love you
Damn I still love you

If it takes a day for every day we were together
If it takes forever
I don't give a damn
Damn I still love you
