Fellow Man

Kelli Ali

stone cold city lights
glittering gold
where we headed to day?
so much beauty in every soul
and I just wanna say...

gonna give a smile
gonna shake a hand
it's time to love
my fellow man

gonna get on top
gonna make a stand
and sing my love for fellow man

wanna talk about sharing our love
hold a hand in the dark
it's so easy there's always enough
baby, here's how we start...

gonna give a smile
gonna shake a hand
it's time to love
my fellow man

gonna get on top
gonna make a stand
and sing my love for fellow man

ah ah ah
we live and we learn
only the free can see
how the sun shines

ah ah ah
wherever we turn
I will love you will love me we'll be
just fine

gonna give a smile
gonna shake a hand
it's time to love
my fellow man

gonna get on top
gonna make a stand
and sing my love for fellow man...
