

God Thing

Kellie Coffey

How blessed I am to have this man
How he loves just reminds me of all that's good
It's not by chance it's all been planned
I believe he was sent to me
Coz this love is a God thing

In your eyes I recognized
That you knew me and somehow it just felt like home
Coz here I'm safe so deep in grace
I believe we were meant to be
Coz this love is a God thing

You are the one
It bring the tears fall down
Or if heaven wraps its arms around this

Here we stand so take my hand
I will love you forever
whatever the road may bring
This precious gift has shown me this
I believe he was sent to me
I believe we were meant to be
Coz this love is a God thing
HmMMM...
