

## Walk On

Kellie Coffey

It came out of nowhere  
Dropped like a stone  
Careless betrayal  
I could not believe it  
And I feel abandoned  
Where did it all go wrong?

Truth hit my blind spot  
I could not see it  
I cry out to heaven to get me through hell  
In the meantime  
I just keep tellin' myself

Walk on, walk on  
And don't let this sad set-back break me  
Walk on, walk on  
See where this detour will take me  
Well, I've been beaten down on the ground  
But I'll pick myself up and dust off  
And walk on  
Sunsets behind me and all that's ahead  
Is a long stretch of road  
God knows where it's going  
Crying comes easy out here in the dark  
'Cause the hardest part is the fear of not knowing  
I ain't got nothing left that I could lose  
The only thing that I know I can do is

Walk on, walk on  
Don't let this sad set-back break me  
Walk on, walk on  
See where this detour will take me  
Well, I've been beaten down on the ground  
But I'll pick myself up and dust-off  
And walk on
