

# Don't Let Me Stop You

Kelly Clarkson

**F# A E D** (2x)

**F# A**  
1. I used to be a little bit shy  
**E D**  
I kept my deepest feelings inside  
**F# A E D**  
Speaking up to you about my emotions has always been hard  
**F# A**  
But this just can't wait  
**E D**  
Tonight I feel a little bit brave  
**F# A E D**  
So I won't let one more day pass without me explaining what we are

**Bmi F#**  
X1: This is gonna sound kinda silly  
**A**  
But I couldn't help but notice  
**E**  
The last time you kissed me  
**Bmi**  
You kept both eyes open  
**F#**  
Baby, can you tell me what does that mean?  
**A**  
If you're looking all over your shoulder  
**E**  
Then you don't need to be with me  
And I don't need to hold on

**F# A**  
R: Don't let me let me stop you  
**E D**  
From doing what you wanna do  
**F# A**  
You don't wanna stay with just me it's cool  
**E**  
Take no chance getting over you  
**F# A**  
No no don't let me let me stop you  
**E D**  
If you wanna leave baby you can leave  
**F# A**  
Just don't pretend that you're into me  
**E**  
If it ain't true no, don't let me stop you

2. A lot of things I can take  
Gotta a high threshold for pain  
But let's get one thing straight - I'm not down to share you with anyone  
If that's not what you're looking for  
Nice knowing you, but there's the door  
Cause I know that I can find someone to give me what I want

X2: This is gonna sound kinda silly  
If you're looking over your shoulder

Then you don't need to be with me  
And I don't need to hold on

R: Don't let me...

**F#**            **A**            **E**  
\*: Even if I end up broken hearted

**A**  
I won't lie

**E**  
I don't wanna hear goodbye

But either way I'll be alright

R: Don't let me... (2x)
