

# I Don't Think About You

Kelly Clarkson

When you're lost in the moment  
You can't see where you going  
I didn't who I could trust  
So I put all my faith in us  
Oh, you tore me to pieces  
Turned my strength into weakness  
I didn't want it all to fall apart  
So I decided just to play the part

But honestly, I do it all again  
Putting up with all the bullshit, he made me strong enough to do this

It used to bother me  
Thought I could never leave?  
After all that I've been through, nothin' left to prove  
No, no, no, I don't think about you  
Weighin' down on me  
I lost my sanity  
And now that we are through  
Nothin' left to lose  
No, no, no, I don't think about you

I feel freedom where I stand now  
And I feel proud from who I am now  
Yeah, I learned a lot along the way  
I love the woman that I became

I was patient, but not anymore  
Respect back in my hands  
And you swore I'll never do it  
But it's your turn to face the music

It used to bother me  
Thought I could never leave?  
After all that I've been through, nothin' left to prove  
No, no, no, I don't think about you  
Weighin' down on me  
I lost my sanity  
And now that we are through  
Nothin' left to lose  
No, no, no, I don't think about you

It was hard to hold on  
Days and nights I thought I'd never make at all  
Couldn't make it at all  
Now I stand tall  
Feeling like myself again, no worries at all  
Breathe  
No one can stop me from livin' this moment for me  
I found my heartbeat  
After all that I've been through  
No, I don't think about you

It used to bother me  
Thought I could never leave?  
After all that I've been through, nothin' left to prove  
No, no, no, I don't think about you

Weighin' down on me  
I found my sanity  
And now that we are through  
Nothin' left to lose  
No, no, no, I don't think about you

I don't think about you (no)  
No, no, no  
No, no, no, no anymore  
No, no, no, I don't think about you
