

Shit And Fame

Kelly Clarkson

Give me a break
Give me a freakin' moment
To swallow what I just found out
Give me some space
Give me some mercy
Oh I could use a good stiff drink
Right about now

You say you're sorry
You say you're just not sure
That you're not happy anymore

Well you didn't mind before
When I got you in the door
You didn't wine like this
When I got your name on the list
You used to love me then
When I paid for you and your friends
You say people change
Well I say you are full of shit and fame
Full of shit and fame
Shit and fame

Let me get this straight
Just so I know I'm hearing you
You say I'm holding you back
Baby get this straight
When things start falling apart
I wont be holdin on
I'll watch you fall flat on your ass

You say you're sorry
You say you're just not sure
That you're not happy anymore

Well you didn't mind before
When I got you in the door
You didn't wine like this
When I got your name on the list
You used to love me then
When I paid for you and your friends
You say people change
Well I say you are full of shit and fame
Full of shit and fame
Shit and fame
