

House on the Ocean

The Kelly Family

All I ever wanted in my life
Was a house on the ocean, with my will
Something's tellin' me in my eyes
You're not living, you're dying
In your world

Please don't die
Try not to say goodbye
Please don't die
Try not to say goodbye
Try not to make, make me cry

All I ever wanted to do
Is chop wood for my fire, for winter
But all you ever picked up as young
Is get a job and you'll go higher
In your world

Please don't die
Try not to say goodbye
Please don't die
Try not to say goodbye
Try not to make, make me cry

All I ever had to do
Was with living or dying, in this world
All I ever wanted in my life
Was a house on the ocean
With my will

Please don't die
Try not to say goodbye
Please don't die
Try not to say goodbye
Try not to make, make me cry
