

# Uh Oh

Kelly Osbourne

My hands are down  
I can no longer masquerade  
You're just like poison in my veins  
Killing me inside  
I know you tell everyone i'm  
Whats her name

But your story tends to change  
When you look in my eyes

UH OH  
You really need to go

Don't waste another minute of my precious time

The social strain  
Is watching you out with all your friends  
With the disgust that you pretend when i walk on by  
You wear it well  
Treating me like someone you dont know  
But then you call me on the phone  
To tell me goodnight

UH OH  
I think i better go

Before i turn this love into a crime  
UH OH  
You really need to go  
Don't waste another minute of my precious time

You turn me inside out  
You can follow me around  
I dont care what you do  
Just as long as you know i'm thru

UH OH  
I think i better go  
Before i turn this love into a crime  
UH OH  
You really need to go  
Don't waste another minute of my precious time  
UH OH  
I really need to go  
Don't wanna think about when you were mine
