Unity

Kelly Rowland

Picking up the pieces
Of a life that I once knew
What will tomorrow bring

Gray skies all around me
I don't know where to turn
Can you help me with this pain?

A shooting star, a ray of light
A breeze that calms me in the night
I got your message yesterday
I feel you here, I wish that you could

Stay with me
Two hearts forever
You were the spark that lit the flame
Only if you'd

Stay with me
This love's forever
And in my heart you will remain
Until we meet again

Sitting in the cold room
Waiting for the sun
Will ever shine again?

Pictures frames, the better days
Are swirling in my head
Will I ever find a way?

A shooting star, a ray of light
A breeze that calms me in the night
I got your message yesterday
I feel you here, I wish that you could

Stay with me
Two hearts forever
You were the spark that lit the flame
Only if you'd

Stay with me
This love's forever
And in my heart you will remain
Until we meet again

I got your message yesterday
I feel you here, I wish that you could

Stay with me
Two hearts forever
You were the spark that lit the flame
Only if you'd

Stay with me
This love's forever
And in my heart you will remain

Until we meet again
Until we meet again

You've gotta slow down
Just slow down
You've gotta slow down
Just slow down
