

Got A Feelin' For Ya

Kelly Willis

I might bark at you and get a little loud
Embarrass you, someday in a crowd
Might run you 'round in circles, make you dizzy in the head
I might run you ragged once or twice, forget to get you fed

But hold on tight and let it roll right over you
You should know, I'd never do you no harm
'Cause I got a feelin' for ya
Real deep feelin'

Sometimes I get a little stubborn, feel like you're talkin' to
a wall
It don't mean that I don't love you baby, it don't mean nothin'
at all
Well, cans are made for kickin', kick it all night and day
When I get stuck on somethin' baby, nothin' can pull me away

Hold on tight, let it roll right over you
You should know, I'd never do you no harm
'Cause I got a feelin' for ya
Real deep feelin'

I hear bells are ringin', it's comin' down the street
I'm in the mood for something sticky, I need my ice cream treat
The road may get rocky and the ride may get rough
I might drive you crazy, you might think, you've had enough

Hold on tight, let it roll right over you
You should know, I'd never do you no harm
'Cause I got a feelin' for ya
Real deep feelin'

A real deep feelin'
Somethin' how I feel about you
Never let no one or nothin' mistreat you baby
Crazy as I am, I got a feelin'
