

Not Afraid of the Dark

Kelly Willis

You've warned me quite enough
You're not as bad as you say you are
Not afraid of the dark

I see the light in you
You need me there and I want you too
Not afraid of the dark

In the garden where it started
When I saw you look away
I felt nothing from that moment
I felt nothing but you
I feel nothing but you

We can't go too far
You're as brave as I know you are
Not afraid of the dark

In the garden where it started
When I saw you look away
I felt nothing from that moment
I felt nothing but you
I feel nothing but you

You treat me like your lamb
Waiting for my tiger-man
Not afraid of the dark
Not afraid of the dark
Not afraid of the dark
