

# Waterfall

**Kelly Willis**

Don't even try  
To say we're all meant-to-be's  
Drawn in the heavens and told in the stars  
And don't even cry  
And say here on bended knee  
I've been here forever and I know who you are

(Chorus)

Pour me a waterfall  
And I'll drink it down  
Roll them old memories around  
I know I'm still in love with you  
You just been gone for too long  
Even a child could see what you've done to me  
Wish I'd never seen your face  
If I'd known what's in store  
And I wish that I could just let you walk through my door  
Stare at the vows rolling round on the floor  
Chorus  
Chorus  
I know I'm still in love with you  
You just been gone for too long
