

# HEARTFIRST

Kelsea Ballerini

Met him at a party, accidentally brushed his body  
On the way to get a drink at the bar  
I couldn't wait till later, talking in the elevator  
Then we're kissing in the back of the car  
That voice in my head says to slow down  
But it can't see the way you're looking at me right now  
It may not be next week, what I need  
Then again, maybe it might be

Could be forever or we might break  
That's just the kind of risk that we take  
My head is yelling that I could get hurt  
But I'm gonna jump right in  
Baby, with my heartfirst

I gotta have ya, gotta see if this works  
I gotta have ya, wake up in your t-shirt

Who knows what'll happen, ain't that always kinda magic  
When you don't know who's holding the cards  
Could be a wish I never knew ya or permanently tattoo ya  
Only the moon knows what's in the stars (What's in the stars)  
That voice in my head says to slow down  
But it can't feel your hands on my hips right now  
It may not be next year, what I need  
Then again, maybe it might be

Could be forever or we might break  
That's just the kind of risk that we take  
My head is yelling that I could get hurt  
But I'm gonna jump right in  
Baby, with my heartfirst

I gotta have ya, gotta see if this works  
(I gotta have ya)  
I gotta have ya, wake up in your t-shirt  
I gotta have ya, diving in heartfirst  
(Heartfirst)  
I gotta have ya  
Ooh, I gotta have ya

And I can't even stop myself anymore  
(Ooh, I gotta have ya)  
Oh, we couldn't end the perfect night outside my front door

Could be forever or we might break  
That's just the kind of risk that we take  
My head is yelling that I could get hurt  
But I'm gonna jump right in  
Baby, with my heartfirst

I gotta have ya, gotta see if this works  
(I gotta have ya)  
I gotta have ya, wake up in your t-shirt  
(Wake up in your t-shirt, yeah)  
I gotta have ya, diving in heartfirst  
(Diving in heartfirst)

I gotta have ya  
Yeah, I gotta have ya
