

Love and Hate

Kelsea Ballerini

There's a thin, thin line between love and hate
Between a heart that's whole and a heart that breaks
Between ending the world or saving the day
There's a thin, thin line between love and hate

We used to be so happy, didn't we
We used to say that forever'd be easy
But the day that you lied, I felt it all change
I crossed that thin, thin line between love and hate

Now there's a thin, thin line between you and me
Between what this is now and what we used to be
The one that you choose to the one that you cheat
Now there's a thin, thin line between you and me

We used to be so happy, didn't we (We used to be happy)
We used to say that forever'd be easy (Forever'd be easy)
But the day that you lied, I felt it all change
I crossed that thin, thin line between love and hate

We used to be happy

Now there's a thin, thin line between love and hate
Between a heart that's whole and a heart that breaks
We used to be so happy, didn't we (We used to be happy)
We used to say that forever'd be easy (Forever'd be easy)
But the day that you lied, I felt it all change
I crossed that thin, thin line between love and hate

We used to be happy
Forever'd be easy
We used to be happy
