

The Way I Used To

Kelsea Ballerini

(In the way, in the way)
In the way I used to, yeah

Friday night I'm paranoid
Faded out, like Polaroids
Liquid courage in my veins right now
I always hit you up when
There's too much in my cup, yeah
That's when those memories start gettin' loud

I didn't mean to write a song about you
But a couple shots and all the words pour out
I swear, I'm doin' better off without you
So I don't know why, but I wanna find out

Does somebody love you
In the way I do
I mean the way I used to
Does somebody touch you
In the way I do
I mean the way I used to
I know it's three in the mornin'
It's tequila talkin'
Damn, your voice is all up in my head again
Does somebody love you?
In the way I do
I mean

Still postin' all your pictures
Damn, I wish you looked different
Without that sorry look all in your eyes
And yeah you made me crazy
Do I miss you, well, maybe
Or am I drunk on the idea tonight?

I didn't mean to write a song about you
But a couple shots and all the words pour out
I swear I'm doin' better off without you
So I don't know why but I wanna find out
I wanna find out

Does somebody love you
In the way I do
I mean the way I used to
Does somebody touch you
In the way I do
I mean the way I used to
I know it's three in the mornin'
It's tequila talkin'
Damn, your voice is all up in my head again
Does somebody love you
In the way I do
I mean the way I used to

(In the way, in the way)
In the way I used to
(In the way, in the way)

In the way I used to

And damn, your voice is all up in my head again
Space between us don't stop me from wonderin'
I didn't mean to write a song about you
No, no, here we are though
And now I gotta know

Does somebody love you
In the way I do
I mean the way I used to
Does somebody touch you
In the way I do
I mean the way I used to
I know it's three in the mornin'
It's tequila talkin'
Damn your voice is all up in my head again
Does somebody love you
In the way I do
I mean the way I used to

Ignore me
It's just tequila talkin'
Ignore me
It's just tequila talkin'
