

# UNIVERSE

Kelsea Ballerini

I don't know  
Why the world is spinning or why the flowers grow  
Why the sky is blue or why the clouds make snow  
Maybe I'm not supposed to understand  
If it's just dumb luck or somewhere in God's plan  
But whatever got you here to hold my hand  
Is some kind of magic

You make me believe in something bigger than just me  
Baby, you make the impossible  
Feel like it's all logical  
Lying in your arms, could be Jupiter or Mars  
You say I hang the stars in your eyes  
But you put the universe in mine (Oh)  
(Oh) Mmm

I don't get  
How you broke into my mind and opened it  
Maybe someone up there lost a bet  
'Cause now I'm saying all the things I never say  
And living in my body, not my head, mmm  
Who I was before you, I forget  
Yeah, it's some kind of magic

You make me believe in something bigger than just me  
Baby, you make the impossible  
Feel like it's all logical  
Lying in your arms, could be Jupiter or Mars  
You say I hang the stars in your eyes  
But you put the universe in mine (Ooh)  
Mine, oh, mi-mi-mi-mine

Mine  
Mine, oh, mi-mi-mi-mine  
You say I hang the stars in your eyes  
But you put the universe in mine
