

I ain't seeing much light in the tunnel  
Been busy trying to find a way out  
Quit waiting on your come back  
Stop wondering what you're doing right now  
I'm still kicking up dust down a dirt road  
Cranking up every one of our songs  
Sure wish this Chevy had a low gear  
That could get you gone

Wish they made a 4x4 to pull me out of this loving you  
A cold beer to get me over goodbye  
A shot of bourbon that does what I need it to  
To get me through this missing you tonight  
'Cause I'm hung up, stuck in a rut  
Broke down, ain't nothing I can do  
High centered wheels spinning  
Yeah, I wish they made a 4x4 to pull me out of this loving you

And if they did, I'd be down at the dealership  
Walking in, saying, "Where do I sign?"  
'Cause this ole boy would give 'em every last dime  
Just to get over you tonight

Wish they made a 4x4 to pull me out of this loving you  
A cold beer to get me over goodbye  
A shot of bourbon that does what I need it to  
To get me through this missing you tonight  
'Cause I'm hung up, stuck in a rut  
Broke down, ain't nothing I can do  
High centered wheels spinning  
Yeah, I wish they made a 4x4 to pull me out of this loving you  
To pull me out of this loving you

Wish they made a 4x4, a 4x4, a 4x4 to pull me out of this  
A 4x4, a 4x4 to get me back rolling again

Wish they made a 4x4 to pull me out of this loving you  
A cold beer to get me over goodbye  
A shot of bourbon that does what I need it to  
To get me through this missing you tonight  
'Cause I'm hung up, stuck in a rut  
Broke down, ain't nothing I can do  
High centered wheels spinning  
Yeah, I wish they made a 4x4 to pull me out of this loving you  
To pull me out of this loving you  
To pull me out of this loving you

(A 4x4 to pull me out of this loving you)  
(Wish they made a 4x4 to pull me out of this loving you)
