

# Drink About Me

Kelsey Hart

We were a million miles a minute  
Like the world was only spinnin' round for us  
Started a fire and we jumped in it  
Hotter than the center of the sun  
Slow kissin' in a fast car  
Jeans slidin' off in the rain, yeah  
Tonight it's got me smilin'  
Buzzin' on the memories we made  
Here's to those days

I hope a Margarita puts you on a coast with me  
A cold Corona takes you down to Mexico  
And baby when you take a sip of some strong whiskey  
Does it put you in a dive bar stealin' my heart  
In a corner booth way down in Baton Rouge baby  
'Cause baby after all of this time  
One little sip and I miss you like crazy  
Tell me baby do you drink about me?

Do you ever look back and laugh  
At that time we got so drunk at your apartment  
Playin' air guitar like we were Guns 'N Roses  
We were too damn good to forget about  
So girl I'm raisin' one up now to the moments I'm still holdin'

I hope a Margarita puts you on a coast with me  
A cold Corona takes you down to Mexico  
And baby when you take a sip of some strong whiskey  
Does it put you in a dive bar stealin' my heart  
In a corner booth way down in Baton Rouge baby  
'Cause baby after all of this time  
One little sip and I miss you like crazy  
Tell me baby do you drink about me?

The way I drink about you  
And if you drink about me  
Oh baby when you do

I hope a Margarita puts you on a coast with me  
A cold Corona takes you down to Mexico  
And baby when you take a sip of some strong whiskey  
Does it put you in a dive bar stealin' my heart  
In a corner booth way down in Baton Rouge baby  
'Cause baby after all of this time  
One little sip and I miss you like crazy  
Tell me baby do you drink about me?

The way I drink about you  
If you drink about me  
Oh baby when you do
